PROFESSIONAL SUMMARY

Data Analyst with 2.5+ years of experience in garment merchandising operations, ERP/SAP systems and PO management. Skilled in gathering, cleaning and analyzing data to find important trends and in building clear reports and dashboards that support business decision-making. Experienced in end-to-end PO raising and SAP data entry, cross-department master file maintenance and data reconciliation between customer portals and internal systems. Known for quickly learning new tools, solving problems independently and collaborating effectively with cross-functional teams to drive measurable business impact.

TECHNICAL COMPETENCIES

- Data & Analytics: Data Cleaning, Variance Analysis, SAP Data Entry, Financial Reporting, Master Data Management
- Systems & Tools: SAP,LOGIC, ERP Systems, Customer Portals, Microsoft Excel, POWER BI
- Operations: Data Reconciliation, PO Management, Margin & Cost Analysis, Cross-Functional Coordination

EMPLOYMENT HISTORY

Data Analyst | Group PDS — Vertical OLE UK

[2025 (Mar)-2026 (June)]
Baridhara DOHS R-6

Order Costings: Reviewed customer portal sheets for order costing and shared margin insights with stakeholders.
Purchase Order Management: Raised purchase orders in SAP post-approval, consistently meeting an ***80% end-of-month*** processing target while coordinating with the SAP development team to resolve system issues.
Master File Updates: Maintained Merchandising, Sales, QA & Trims master files (order overview, sample/hit-rate trackers, QA tracker, vendor index).
Reporting: Presented weekly/monthly updates on order reviews, financials, and sales order status.
Data Reconciliation: Ran weekly pricing and SAP-vs-master file checks, flagging variances for correction.

Trainee Executive, MIS | RENAISSANCE GROUP

[2024 (Jan)-2025 (Jan)]
Uttara, Dhaka

ERP System Analysis & Reporting: Analyzed ERP data to identify newly confirmed orders post-shipment and generated BOM Closing reports for management review under Business Process Development (MIS).
Order Closing: Generated buyer-wise order and closing history reports; coordinated with Merchandisers, stores, and audit teams to support timely BOM submission.
Master Data Management: Enlisted and maintained master data in the ERP system, including colors, yarn/fabric compositions, supplier and buyer details and item records.
